

GX Rotary Cam Switches

The GX series is characterised by compact design, installation ease and finger protection with standard supplied IP20 degree termination. Four different ratings - 16, 20, 32 and 40A - are available and suitable for isolating motor load circuits per AC23 or AC3 duty, and switching control circuits per AC15 duty. Switches can be modular, front mount with face plate or 22mm fixing ring nut, or base mount complete with door coupling system. There is a wide choice of circuit schemes and custom configurations are available too.
