

Level control relays for conductive liquids

The new LVM series relays have been designed to satisfy a wide range of applications, from very simple to sophisticated ones.

- LVM20 with emptying and/or filling function
- LVM30 with emptying and/or filling functions plus timer
- LVM40 with multiple high sensitivity functions (2,5...200k Ω).

The **moduLo** range also includes new priority change relays, LVMP type, to start 2 motors.
